

KD CAGE

SHOW RABBIT PELLETS

18% Winner's Choice

15% Winner's Choice

KD Cage rabbit formulations can be used not only for show rabbits but commercial and pet rabbits as well. Choosing the correct product depends on the breeder's purpose in raising rabbits and goals he or she wishes to obtain.

FOLLOWING IS A LIST OF NUTRITIONAL BENEFITS CONTAINED IN KD CAGE WINNER'S CHOICE RABBIT FORMULATIONS.

- 1 High levels of Alfalfa meal. See and smell the difference compared to other major brands.**
- 2 Complete feed.**
- 3 Fixed formula. All formulations maintain the same ingredients in the same percentages continuously.**
- 4 When fed properly Winner's Choice exceed all essential nutrient requirements required in a rabbits diet.**
- 5 Amino Acids added to improve levels and ratios of essential amino acids dedicated to improved milk production, feed conversion, muscle development, rate of gain and fur enhancement.**
- 6 Yucca Schidigera Extract added for reduction of ammonia levels.**
- 7 High quality fiber ingredients in addition to Alfalfa meal along with other proven nutrients to maintain gut health, stimulate gut motility and reduce fur chewing. Low fiber high starch diets result in gut hypo motility, reduced cecotrope formation and prolonged retention time in the hind gut which often results in enteritis. Enteritis is a primary gastrointestinal disorder and often results in Diarrhea. This disorder is a result of an imbalance in normal micro flora in the gut; this disorder is often caused by insufficient fiber and or too much starch in the diet. KD CAGE Rabbit Formulations contain no corn, high levels of fiber and additional nutrients to reduce the incidence of enteritis, improve the immune system and general rabbit health.**
- 8 Probiotics for increased digestion, balanced PH levels and general health benefits**
- 9 Chelated Trace minerals for higher digestibility.**
- 10 Higher than normal levels of B-Complexes for health and production benefits.**
